Howdo ANN readers,

Due to financial difficulties the ASF Melb Local has decided to have a garage sale to raise some much needed bucks....To this end i am writing to you all to ask if you have any bits and pieces that we can sell.

Anything will do...old records, toys, books groovy (or not so groovy) clothes, and of course if you have an unused mansion or outdated Porsche in the back shed we will take that off your hands as well.

Collection of materials can be arranged...this is a good chance to get rid of the stuff you couldn't sell at the trash and treasure (hehehehe)...so give us a yell and we will arrange a time for pick up.

Other than that, stay tuned for an upcoming gig...still to be organised....

We can be contacted on (03) 388-1912 or by dropping us a line at RO BOX 199 East Brunswick 3056.

Seeya at the sale,

Rowan -

(on behalf of Melb Local ASF)

Report from IWC

Howdo to all the ANN readers, long time no hear.....since last time we wrote things have been moving along slowly, mainly due to the fact that there's only three of us working on the project. In the last IWC newsletter we called a special meeting with pledgees to discuss certain things that we needed to do. Unfortunately only one other pledgee bar the ones working on the project showed up. It was decided however to keep on working on it for the next 12 months and to re-evaluate the situation then.

Well we recieved our Certificate of Incorporation awhile ago which clears the way for the proper operation of the Club

This will change afew things in relation to the pledgees, ie. with the incorporation thru, and the membership structure operating there'll be the option of continuing as pledgees (if in fact you are one) - made easier with the bank account and payment books - or taking out membership- [$52/26 per year].....

Apart from this we've organised one film and discussion night with the topic focusing on East Timor. There's a feeling that we should be organising more of these as another way of getting people interested in the club and to continue putting into practise the aims of the club. This is no easy task for three people as, on top of this, fund-raising activities have still to be carried out if we're to see the IWC become a reality.

We had another gig at the Empress of India which raised just under $400 and a good nite was had by all...stay tuned for the next one...coming soon.

So we are meeting regularly, having just changed our meeting times to Mondays at 7:30pm. The next one is on the 18th May, then fortnightly from there....all welcome to attend. They are currently at Union st.

With the Incorporation taken care of we can now print up our operational agreements into a booklet and start a 'membership' drive. With 400 members we can pay the rent for a year...

The main problem we can see for the future is that there's been many ideas for the club, ie. bookshop, cafe etc... but we haven't heard of people organising collectives around these activities, and it'll be too late to do so when the warehouse starts. What we're trying to say is that if people want to see something happen in the warehouse they should organise around that activity, as it will take some time to get other people interested in a project & to organise the financial side of things etc.

Maybe there's a misconception that we, the individuals involved in setting up the IWC will organise these things..... well the understanding we have of our role is slightly different, we see it as an initiating role in order to get the actual building happening, that's all. So we're hoping to see people organising around something they want to see happening in the warehouse....let us know.....

be seeing ya,

Row
