LANDLORDS ARE OLD SHOES -

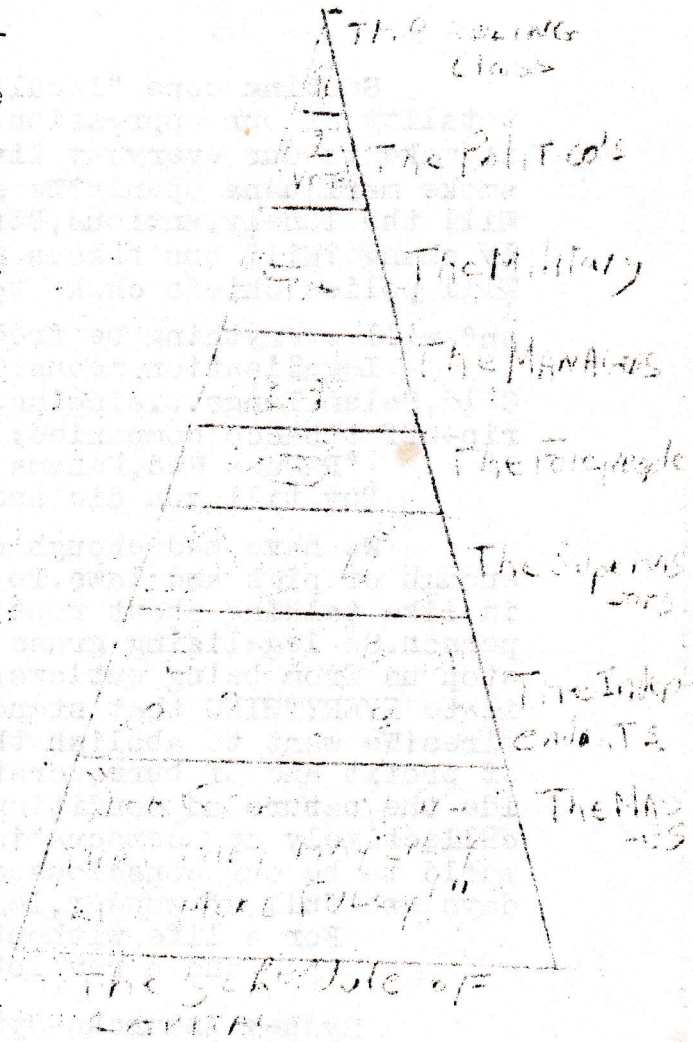
DANCE BAREFOOT!

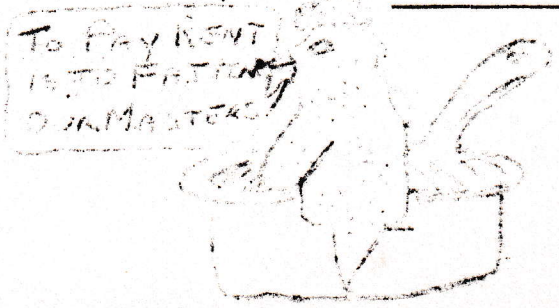
Rent control is no solution to the problem of having to pay rent.There is no such thing as "fair rent",and seeking to employ a panel of experts to decide what is"fair"gives us no more control over our lives thanwe have in the present situation.It is still the landlord,or the"experts" deciding what is to become of us.

We have had enough of wasting our time trying to influence council bureaucrats to change the conditions of our lives.We advocate that people take things into their own hands.

In Sydney ,in recent years hundreds of people have stopped paying rent,collectively occupying housing and declaring it as social wealth belonging to the whole human community.For the 'squatters' an invaluable experiment in the self management of their own lives.Even eviction does not mean the end of the experience,inthat other people can see the benefits of rent refusal and this could lead to the abolishment of rent and all the other capitalist social relations.

We feel that reforms sought by tenants' unions are erroneous These reforms are merely band aids administered to the spurting jugular veins ripped long ago from our necks by Capital. We will never be satisfied as long as the master-slave relationship of landlord and tenant exists,and as long as we are subjected to the tryanny of capital over our lives.The movement continues around the globe in the form of rent strikes,squatting, and occupations.We are not for "fair rent",but for <u>no rent at all!!</u>





We invite communication:

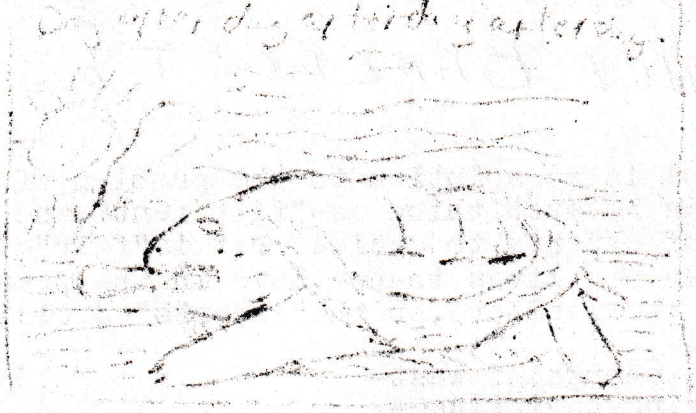
WHY LEGALISATION?



Smoking dope "legally" is no solution to the totality of our oppression.What real difference will it make to our everyday lives if we can "legally" smoke marijuana openly?We smoke it openly right now Will the lonely,anxious,boring lives we live suddenly change?Will our bosses immediately turn to ice? Will police chiefs choke to death on giant roaches; and will everything be free?Think about it.

Legalisation means:Camel Filters,Acapulco Gold,Salem Longs...singing the praises of the rip-off tobacco companies:

"Panama Red,Panama Red,
Buy till you die and work 'til your dead!"

We have had enough of buying and working, enough of pigs and laws.To talk about life today is like talking about rope in the house of a hanged person.So legalizing grass or even acid will not stop us from being outlaws;because we plan to annihilate EVERYTHING that stands in the way of our desires!We want to abolish the system of wage labor, of profit and of burreaucratic power.We want to decide the nature ad conditions of everything we do, collectively and democratically.We want the whole world to be our conscious self-creation,so that our days are full of wonder,learning and pleasure.

For a life without dead time,
and a revolution of untrammeled desire!
